Objective

My vision is that my students are leaders everywhere they go. They should be able to talk with confidence about agriculture, and to other students about leadership. I hope to instill these qualities upon them and have them cultivate their own ideas into what they think Agriculture is and how they each can be incorporated into it.

Certification

CPR/First Aide: From Red Cross Initially certified on 06/21/2018.

Jason Foundation: Suicide Prevention and Awareness initially completed in Spring 2018.

CASE Agriculture, Food and Natural Resources certified for when I start teaching in Fall of 2019.

Education

Kansas State University, May of 2019

Agriculture Education; Bachelor of Science

Work Experience

Hope Lutheran Early Learning Center

April 2018 – Present

I currently work with 1-month year-olds to 5 year-olds. I manage kids daily activities which include stimulus, learning, and active activities. I work with other workers to create a safe learning environment for the children that also fosters a love for Jesus. My biggest project or learning so far is working with a child who has a disorder which causes her to lash out and throw things across the room.

Pismo Coast Village RV Resort Recreation Manager

May 2017 – August 2017

Responsible for guests and children ranging from 4-17 with daily recreational activities including sports, crafts, and special event days. Responsible for training other team members, and making sure they are held accountable. My biggest project was organizing a bike parade for over 150 participants by creating bags, organizing participants, and leading the parade on July 4.

Teaching Experience

Student Teaching: Marion Spring 2019

Public Speaking Unit prepared for the first of the year.

Teaching Experience

Teaching Assistant: Hope Lutheran Early Learning Center April – November 2018

Working with early childhood students, in developing skills, learning, and being active at a young age. Lessons have included pumpkins, colors and counting.

Interactive Field Experience

Junction City

Worked with a group of 4 students teaching them about Horse Judging. Worked with them during school and took those students to a contest. Students placed 7th in Greenhand, and one individual placed 4th overall.

Rock Creek and Chapman as Professional Development Schools

Taught the lessons of SAE and Introduction to Trees to Rock Creek students, at both a beginning level, freshmen, and advanced level, senior.

Awards and Activities
