

Communications & Education for Agriculture Minor

The **Communications and Education for Agriculture minor** allows students to enhance their skillset while adding value to their undergraduate education. This minor is ideal for future Extension professionals as well as those with technical training who want to grow their communications skills.

Completing two core courses and electives to total 15 hours is all that it takes to add this to your program of study and allow you to distinguish yourself among your peers.

Class Offerings:

Core Courses, Select 2

AGCOM 110 Introduction to Agricultural Communications (2)

AGCOM 400 Agricultural Business Communications (3)

AGED 533 Educating the Public about Agriculture (3)

Elective Courses to Complete 15 Total Hours

6 elective hours must be at the 500 level or above

No course can be used for more than three (3) hours towards the minor
