UNDERGRADUATE ADVISING:

KSU

- Academic advisor for 30 undergraduate agricultural education majors.
- Advising four undergraduate researchers.

MSU

- Academic advisor for 22 undergraduate agricultural information science majors.
- Advisor for the MSU Collegiate FFA Chapter
- Advised one student in the Honors Program.
- Advised two students who completed undergraduate research projects.

TEACHING RESPONSIBILITIES:

Kansas State University, Manhattan, MS
Department of Communications and Agricultural Education

July 2016- present

Undergraduate

- AGED 300 *Introduction to Agricultural Education*
This course is an introduction to the Ag Ed program. I taught students the foundation and history of agricultural education as well as led discussions in where it is going in the future. I helped create new assignments (Vision and Goals poster, SAE Teaching, and AET recordbook) to assess student learning. Dr. Ulmer taught the other section and we worked together to bring in guest speakers and plan a field trip for the class.
Taught- Fall 2016, 2017, 2018
- AGED 500 *Methods of Teaching Agriculture in the Secondary and Middle Schools*
This course focused on the principles of teaching applied to agricultural education instruction in the secondary and middle schools. I taught lessons to meet the felt needs of the preservice teachers. Lessons included: lesson planning, set induction, evaluation, rubric design, and other pedagogical items. **Taught-** Fall 2016, 2017, 2018
- AGED 520 *Block II Lab: Content Area Methods and Field Experience*
This course consists of a field-based experience to help the preservice teachers plan, teach, and evaluate their lessons. I worked with 7 high school agriculture teachers to host students in their classrooms. Students planned and taught 4 lessons in classrooms. We then reflected on each experience.
Taught- Fall 2016, 2017, 2018
- EDSEC 586 *Teaching Internship Secondary Schools – Agricultural Education*
This course comprises of the 16-week internship (student teaching). Students spend their time learning from a professional agriculture teacher in a high school classroom. I was the university supervisor for 5 specific teachers, visited 6 others, and worked with the Ag Ed faculty to meet the educational and emotional needs of the interns.
Taught- Spring 2017, 2018, 2019
- GENAG 505 *Agricultural Industry in the Czech Republic*
This course consists of pre-departure meetings and an in-country experience in the Czech Republic. Preparatory class meetings during the spring semester acquaints students with CR agriculture, history, and culture. Additionally cultural aspects of and Kansas connections to the Czech Republic are explored. The experience includes trips to agriculture businesses and farms as well as visits to university and vocational

agricultural schools and governmental agencies, The culture and history of the country is experienced throughout the trip.

Taught- Spring 2018

Graduate

AGED 850 *Curriculum Development in Agricultural Education*
This course is taught online for K-State and AG*IDEA students. The students complete readings and discussions about curriculum theories, challenges, and opportunities that focus on teacher decision-making. The goal of the course is to develop rigorous, relevant and comprehensive curriculum focused on the local agricultural education program.

Taught- Spring 2018

PREVIOUS TEACHING EXPERIENCE

Mississippi State University, Starkville, MS
School of Human Sciences, Agricultural Information Science

August 2012- May 2016

Undergraduate

AIS 2413 *Introduction to Agricultural Information Science*
This course focuses on introducing students to careers associated with agricultural information science, agricultural education both formal and non-formal, and agricultural advocacy. I utilize guest speakers to communicate concepts in the curriculum and speak of career opportunities. I also work to make them aware of the support services located on campus.

Taught- Every fall semester since Fall 2012

AIS 3013 *Field-Based Experience in AIS*
I designed this course to meet the agricultural mechanic development needs of pre-service teachers. Also, the course will allow for focus on horticulture competencies in future semesters. I worked with current high school ag teachers to host students. The students were asked to complete 120 hours of observation and complete related assignments. I met with the students once a week to track their progress.

Taught- Fall 2014, Spring 2015, Summer 2015, Fall 2015

AIS 3203 *Professional Writing in Agri., Natural Resources and Human Sciences*
This course focuses on teaching the basic techniques and principles in communicating information relevant to agriculture, natural resources, and life sciences. Students completed a variety of writing assignments and a grant proposal. I added two assignments to the course: thank you note and request for letter of recommendation.

Taught- Summer 2015

- AIS 3333 *Professional Presentations in Agriculture and Life Sciences*
This course focuses on developing students' public speaking skills in group and one-on-one settings. Students are asked to complete 5 presentations, a mock trade show, a parliamentary procedure demonstration, and a mock job interview. Rubrics were adjusted to better communicate the expectations for the assignments.
Taught- Spring 2013, Fall 2013, Spring 2014
- AIS 3500 *Internship (Agricultural Science & AIS-Leadership)*
Students complete at least 150 hours working with agricultural professionals in a variety of environments. I facilitated this course with the assistance of two graduate students.
Taught- Summer 2015
- AIS 3803 *Leadership Development in Agriculture and Life Sciences*
This course is the foundational course for the leadership courses in our program. I taught students through engaging activities and lectures and evaluate students' teamwork skills through an innovative group activity.
Taught- Fall 2012, Spring 2013
- AIS 4403 *Development of Youth Programs*
This course works to teach students the competencies needed to plan, design, advise, and evaluate youth programs. I worked to develop engaging lessons and assignments to gauge their academic growth.
Taught- Spring 2013, 2014, 2015, Summer 2015, Spring 2016
- AIS/HS 4424 *Teaching Methods in Agriculture and Human Sciences*
This course is multidisciplinary with students from a wide variety of backgrounds and majors in the same lecture. I made adjustments to the course to better students for the microteaching labs. In addition to the lecture, I also facilitated the 6 lab sections and 5 lab teachers. Made adjustments to the microteaching assignments for lab.
Taught- Fall 2014, Spring 2015, Fall 2015, Spring 2016
- Teaching Methods Lab*
This course is a component of the AIS 4424 course. The grades students receive in their lab portion roll into their overall grade. Each semester I worked to evaluate the students (8-9 total) in their ability to effectively conduct five lessons. I provided specific feedback to help students develop their teaching skills and facilitated discussion of their methods.
Taught- F'12, F'13, Spring 2014, F'14, Spring 2015, F'15, Spring 2016

AIS 4873 *Professional Seminar in AIS (Student Teaching Seminar)*
The first two times I just helped with this course, but then I took it over in the Spring 2014. I worked to develop material and presentations to meet the needs of student teaching interns. I assisted students in reflecting on their experiences in the field. We met at least four times over the course of the semester. I also helped create assignments which are more closely tied to agricultural education. In the Spring 2014, I worked alongside the FCS teacher supervisor for cross-disciplinary lessons.
Taught- Spring 2013, F'13, Spring 2014, Spring 2015, F'15, Spring 2016

AIS 4896 *Student Teaching in AIS*
This course is the time students spend working with a current high school agriculture class. I made at least 4 trips to supervise the student throughout the semester and complete all the requirements mandated by the OCFBI office in the College of Education. I worked to provide constructive feedback and resources to help intern develop and evaluate weekly lesson plans and other required assignments.
Taught- Spring 2013, Fall 2013, Spring 2014, Spring 2015, F'15, S'16

AIS 4000 *Directed Individual Study*
I created a number of DIS courses for students to explore unique topics and complete a variety of projects.
Taught- Spring 2015, Summer 2015, Spring 2016

Graduate

AIS 6403 *Development of Youth Programs*
This course is taught concurrently with the undergraduate section.
Taught- S'13, S'14, Spring 2015, Summer 2015, Spring 2016

AIS 7000 *Developing Principles and Techniques for Rearing Lepidoptera*
This was a directed individual study course created to accommodate a distance graduate student who needed the course for graduation. I assisted in the development of the syllabus and held the student accountable for her work.
Taught- Spring 2014

AIS 8000 *Creative Component in Agricultural & Extension Education*
Students in the non-thesis option of master's program but complete a creative project. This course allows the student to select a project for them to research and propose.
Taught- Summer 2015, Fall 2015

AIS 9000 *Dissertation Hours*
Guide students in the development of their dissertation. Many of the students are working from a distance so I must hold them accountable for their goals.
Taught- Every semester since Spring 2014

AGSC 3301 *Principles of Agricultural Leadership*

Introduced students to leadership theories and concepts, evaluated written assignments for writing ability, developed syllabus, lessons and tests, worked with a teaching assistant to teach and assess students. Average course evaluation over 3 semesters: 4.54 out of 5.0

Taught – Fall semester 2009, 2010, 2011

AGED 3315 *Personal Leadership Development in Agriculture and Natural Resources*

This course built on the skills and competencies started in the principles course. I worked to teach students through engaging activities and lectures, monitored student progress, and utilized BlackBoard to administer quizzes. Average course evaluation over 3 semesters: 4.75 out of 5.0

Taught – Fall semester 2009, 2010, 2011

AGED 3314 *Team Leadership in Agricultural and Natural Resources*

I worked to design team activities to illustrate key leadership objectives, evaluate students' teamwork skills through an innovative group activity, and integrate current agricultural topics into the curriculum. Average course evaluation over 3 semesters: 4.46 out of 5.0

Taught – Spring semester 2010, 2011, 2012

AGED 4309 *Contemporary Issues in Ag Leadership*

This course is concurrent with the internship experience (AGED 4000).

Taught – Summer 2010 & 2011

AGED 4000 *Internship*

I monitored students' progress while they completed their required internships. I evaluated students' application of leadership concepts and assigned and graded weekly reflection papers.

Taught – Summer 2010 & 2011

- Developed curriculum for and taught high school agricultural education classes:
 - animal science
 - advanced horticulture
 - food science
 - introduction to agriculture
 - horticulture
 - plant and soil science
 - small animal care
 - ag communications and leadership
- Sponsored students on trips in and out of state
- Led students in the Garst Advertising Competition, raising more than \$3,000 for the FFA chapter
